

RAY-AIR™ Panel

RAY-AIR™ is the patented answer for every indoor space, from the vision that drives Go Fan Yourself.

Ventilation includes both the exchange of air to the outside as well as circulation of air within the building. It is one of the most important factors for maintaining acceptable indoor air quality in buildings.

Features

- Powered by HVAC / axial fans for exceptional performance and long life
- The RAY-AIR™ tile is antimicrobial, printable PVC
- Customize your panel with digital printed option
- Wall mountable – 2-1/2" deep
- Lightweight – weighs less than 20 lbs.
- Ships fully assembled. Just mount or hang and plug in!

Why Does It Work?

<https://en.wikipedia.org/wiki/HVAC>

Benefits

Reduce:

- Temperature variance floor to ceiling
- Odors
- Mold & mildew growth
- Humidity & condensation
- Sick building syndrome
- Operational costs
- Allergens and Pathogens
